

Wastewater Treatment & Wastewater Collection CLASS II Operator Certification Preparation Course & Exams

Saskatoon
Session

Who should attend?

- **All Class I Operators of wastewater treatment and/or wastewater collection systems seeking higher certification level**

The Course Offers

- **Preparation to write Saskatchewan Class II – Certification Exams for Wastewater Treatment & Collection**
- **Examination sessions provided on the 5th day**
- **Introduction – Legislation & Pollution Control**
- **Safety – Plant & Collection Works**
- **Basic Technical Skills**
- **Support Systems**
- **Administration**
- **Wastewater Treatment (Principles/Equipment)**
- **Wastewater Collection (Principles/Equipment)**

Prerequisites:

Basic understanding of wastewater treatment and wastewater collection system principals, practices and terminology as well as basic mathematic skills with Class I Certification.

Course Leaders:

Bertrand Gaudet, A.Sc.T. Process Specialist, has 30 years experience in industrial analytical laboratories, and is an experienced chemical engineering technologist. His main experiences in industry are the optimization of plant process and the assistance to operators in troubleshooting their operations.

Andrew Stevenson, ATAP Group Manager, has over 15 years of experience in the operations and maintenance of water and wastewater infrastructure. He has provided operation and maintenance assistance training for municipal systems.

Rick Hanson, A.Sc.T., Water & Wastewater Systems Specialist, has over 27 years of experience in managing the operation and maintenance of a Level 4 Water and Level 3 Wastewater Treatment plant. He has delivered classroom training to operators, and has provided Operator circuit training for First Nation communities.
